CONFIRMATION OF CARBON CREDIT RETIREMENT

for

Larnaka International Airport

On 5 August 2026, 4,000 tCO_2e were retired on behalf of Larnaka International Airport.

This document confirms the retirement of carbon credits from the Xinwufeng AMMS GHG Mitigation Project in Hunan Province (GS12073) within the internationally recognised Gold Standard Registry. These credits were issued under accredited international standards and independently verified by a third party for the relevant monitoring periods.

Through this retirement, Larnaka International Airport has compensated its 2025 emissions by supporting a project that captures methane from livestock waste and converts it into renewable energy. This contributes to climate mitigation while supporting sustainable development. The associated serial numbers have been permanently retired and are publicly recorded in the Gold Standard Registry.

Kevin McGeeney - Director of Sustainability & CEO

CERTIFICATE APPENDIX

GS 12073 - Xinwufeng AMMS GHG Mitigation Project in Hunan Province

Project type: Biogas

Quantity of Retired VCU: 4,000

Serial Number: GS1-1-CN-GS12073-5-2023-29882-3176-7175

Climate

Positive Action for Planet + People

We are delighted to confirm the retirement of

4000 Verified Emission Reductions (VERs)

by

SCB Environmental Markets SA

on **05/08/2026**

These credits were retired on behalf of Larnaka International Airport.

Retired for Larnaka International Airport's 2025 emissions.

Project: Xinwufeng AMMS GHG Mitigation Project in Hunan Province

These credits have been retired, saving 4000 tonnes of CO2 emissions from being released into the atmosphere.
Thank you for investing in a safer climate and more sustainable world.
